

April 2019 Performance Metrics

The purpose of CTA's monthly performance metrics is to set internal goals for agency performance to encourage improvement and establish accountability. Below is information that may be helpful in understanding the metrics for the month of April, including progress that has been made in several metrics. All boxes in green demonstrate that CTA met or exceeded its monthly target and yellow boxes mean that the CTA came within 10% of the monthly performance target. Targets missed by more than 10% are indicated by a red colored box

In April, the CTA met, exceeded or came within 10% of the agency's monthly internal targets in nearly all categories for bus and rail, including:

- Rail Ridership;
- Bus Ridership;
- Total Ridership;
-
- Mean Miles between Reported Rail Vehicle Defects;
- Mean Miles between Reported Bus Vehicle Defects;
- Average Daily Percent of Rail Fleet Unavailable for Service;
- Average Interior Rail and Bus Clean Inspection scores; and others.

In April, the Average Daily Percent of Bus Fleet Unavailable for Service missed its target due to ongoing routine seasonal inspections and maintenance work, as well as on-board technology system upgrades.

Due to one of the on-board bus systems not functioning properly, supporting data for the three following metrics are not available this month: Percentage of Big Gap Intervals, Percentage of Bunched Intervals and Percentage of Buses with Defective AVAS.
