Mosley
21st Ward**

Red Line Extension Project Overview

- 5.6-mile Red Line Extension from the 95th Street Terminal to 130th Street
- Four new stations at 103rd Street, 111th Street, Michigan Avenue, and 130th Street
- Parking and bus connections at each new station
- New train storage yard and maintenance facility at 120th Street

Connecting 95th/Dan Ryan to 130th Street: Why is the Red Line Extension Project Needed?

Improving the
Transit Experience

New Opportunities
for Chicagoans

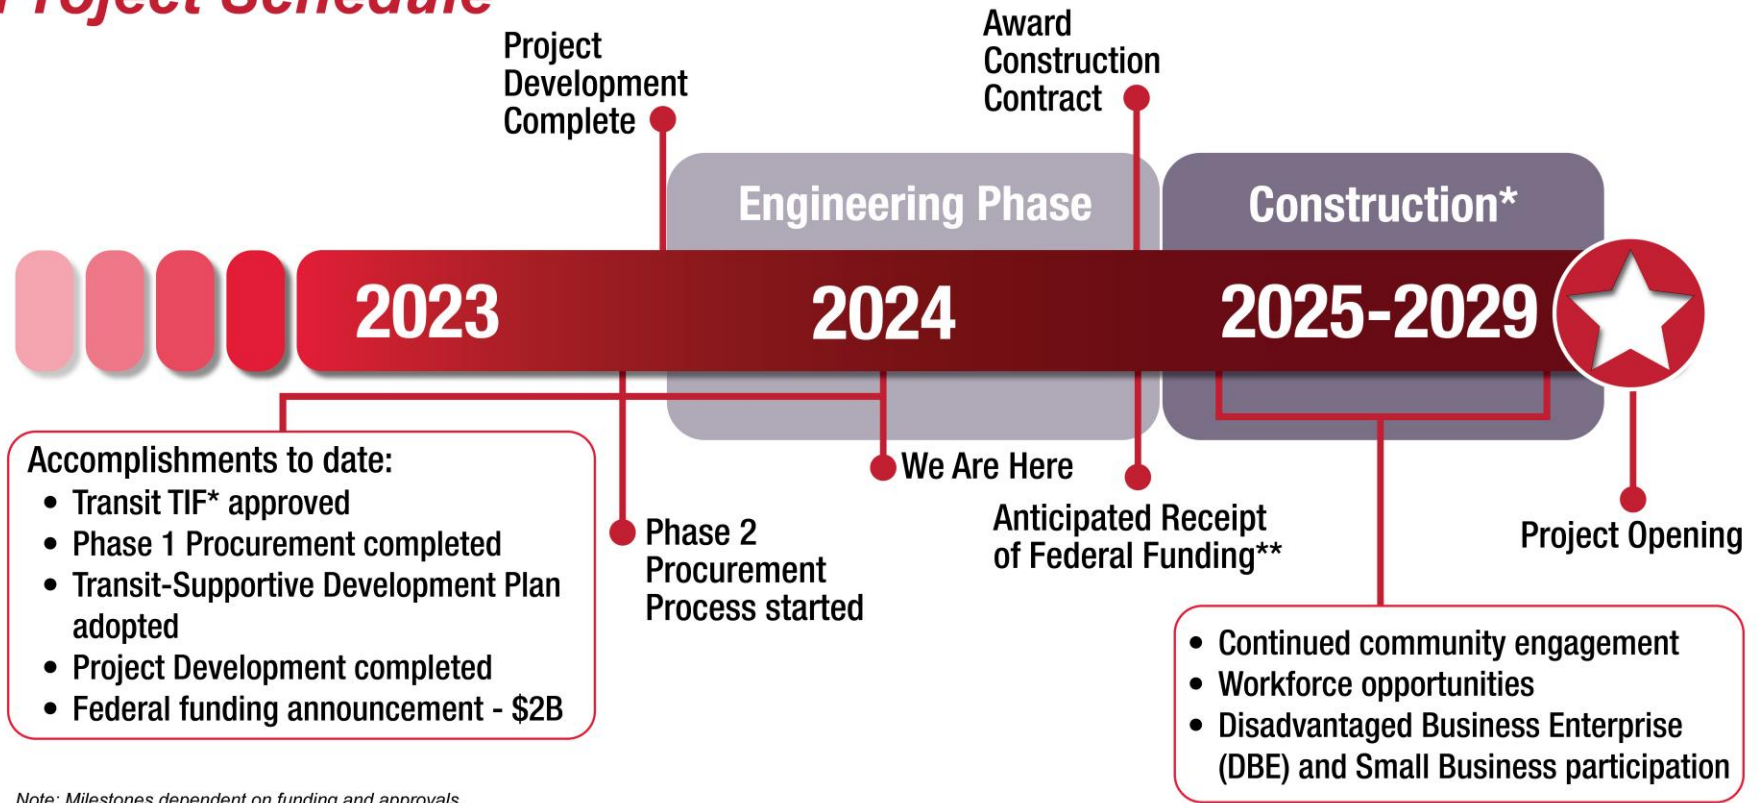

A Better System
for Everyone

Connecting People
and Investing in
Neighborhoods

Project Schedule

*Note: Milestones dependent on funding and approvals.
 Transit Tax Increment Financing (TIF)
 Exact dates subject to further refinement as project advances.

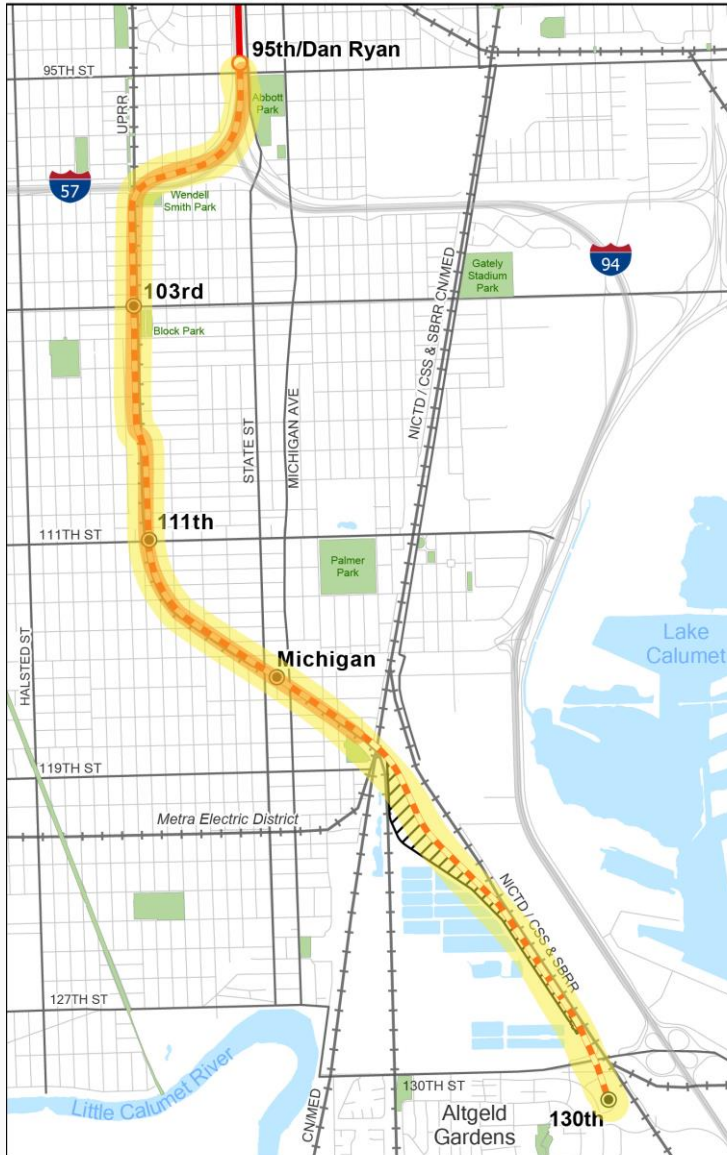

Starting Advance Construction Work for RLE

To build the 5.6-mile Red Line Extension from 95th Street to 130th Street, we need to:

- Demolish properties where tracks will be built
- Relocate utility poles and equipment to make way for the new tracks and four new stations

CTA is committed to providing information to residents and local businesses about what to expect, when to expect it and what we will do to minimize those impacts.

Inset

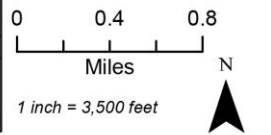

Legend

- Future Rail Station
- Existing CTA Station
- - - Alignment
- ▨ Future Rail Yard
- +—+— Railroad
- Existing CTA Red Line
- Parks / Open Spaces
- Water Bodies
- Demolition Area
- Advance Utility Relocation

All proposed stations are fully accessible and include Park & Ride facilities

Scale

NICTD/CSS & SBRR = Northern Indiana Commuter Transportation District/Chicago South Shore & South Bend Railroad, CN/MED = Canadian National/Metra Electric District, UPRR = Union Pacific Railroad

Demolition and utility relocation: Work area

Property demolition

Property demolition for the Red and Purple Modernization (Phase One) Project north of Belmont, 2018

What needs to be done?

- In preparation for the construction of the RLE project, CTA will begin demolishing properties acquired for the project and preparing land for future construction work
- This work is expected to begin fall of this year, and it will last through 2025
- This work will occur south of 95th Street to north of 119th.

Demolition Equipment

Skid steer with breaker attachment

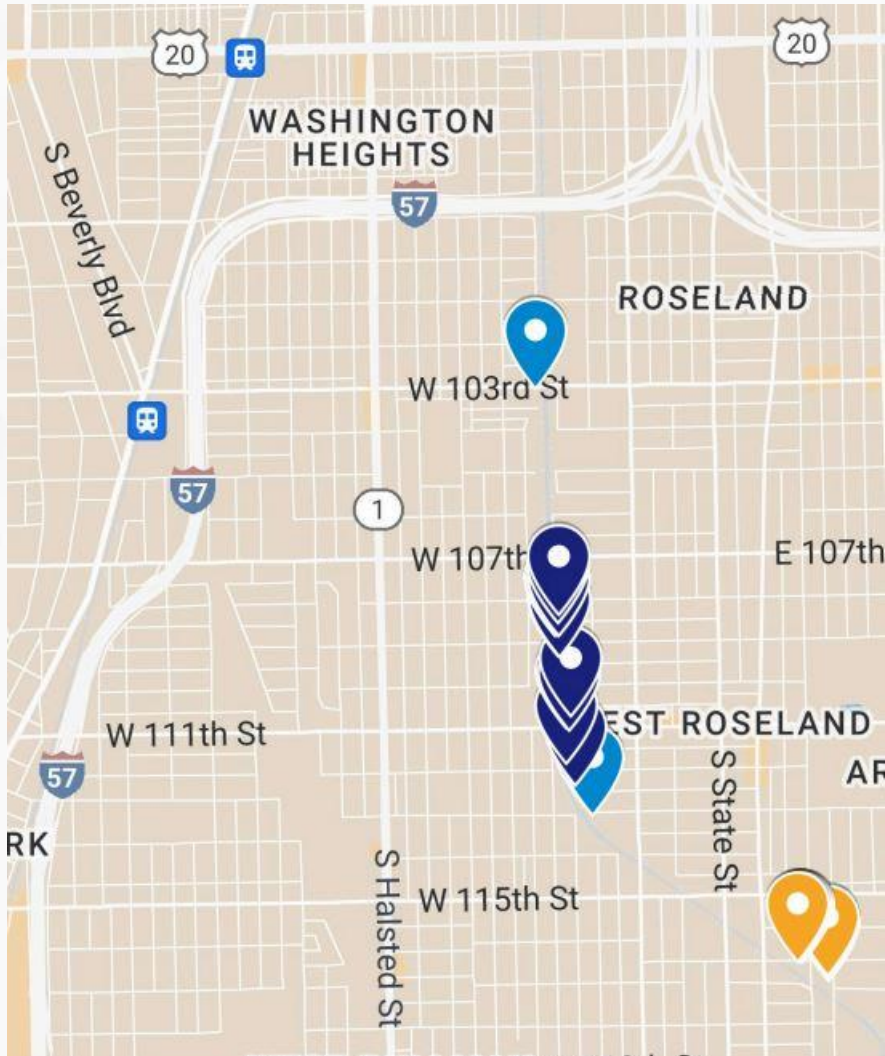

Debris truck

Excavator

Demolition work: Timing

- First groups of properties acquired for the project to be demolished include:
 - From 103rd St to 113th St north to south and between Wentworth Ave and Normal Ave east to west.
 - From 107th St to 117th St north to south and between Prairie Ave to the UP-Railroad tracks (S. Eggleston Ave) east to west.
- Demolition work is expected this fall with other parcel demolitions to follow
- Properties to be demolished have already been acquired by CTA for the project and are vacant and boarded up
- Community will be notified in advance of demolition work

Advance utility relocation work

What needs to be done?

- Digging new underground trenches and relocating power and communication lines
- Installing shorter utility poles to provide service to adjacent properties; and relocating power transformers on poles to underground
- Work will begin fall 2024 through 2025
- Work will occur from 95th Street to north of 130th Street

Removal of a utility pole near Bryn Mawr as part of the RPM Phase One Project, 2019

Utility relocation equipment

Light pole digging/setting truck

Bucket trucks

Fiber-optic van

Excavator and backhoe combo

Excavator with breaker

Utility relocation work

Timeline of work

- CTA, contractors and utility companies (electric, gas, water, cable/Internet) continue to develop work plans and schedule this work
- We expect the work to begin in fall 2024 through 2025
- Community will be notified in advance of utility work as it affects local streets, alleys, etc.

Advance work: Community impacts

Impacts may include:

- Noise – running air compressors, excavators, generators, general construction noise
- Concrete dust/digging
- Temporary street, alley closures
- Temporary sidewalk closures
- Short utility disruptions

Relocation of utilities underground near Argyle, 2019

Construction mitigations for the community

CTA will implement the following mitigations to reduce impacts to the community:

- **Demolition**

- Contractors will use water and other dust control measures.
- There will be screen fencing.
- Multiple adjacent properties will be demolished together to reduce frequency of closures of streets and alleys.

- **Utility relocation**

- Contractors intend to complete utility work for multiple utilities in one location to reduce number of street and alley closures.
- Utility disruptions (varying from an hour to a day) will be minimized as much as possible; advance notification by utilities will be provided

How will I know when work starts near me?

CTA will notify the community of upcoming construction activities via Construction Activity Notices (CANs) in print, online and via project subscriber eBlasts.

RED AHEAD

Construction Activity Notice

We are continuing construction on the Red and Purple Modernization (RPM) Phase One project to rebuild 100 year old rail infrastructure and improve transit service. Work will be performed that will affect your community and create inconveniences. We are committed to doing our best to minimize the impact of our work and will continue to keep you updated throughout the project.

EXTENDED ALLEY CLOSURE

Dates: Wednesday, May 29 to Saturday, July 13, 2024

Location: The alley east of 5625 – 5637 N. Broadway

Work Hours: 7am to 7pm; continuous 24/7 alley closure
(Prep work will begin at least 1/2 hour prior to start of shift)

Work Activity: Track Structure Segment Delivery

Local Impact:

- Crews will block access to the alley behind 5625 – 5637 N. Broadway until the work activity is complete.
- Access to the alley behind 1124 – 1144 W. Bryn Mawr Avenue & 5605 – 5609 N. Broadway will be maintained at all times.
- There will be noise while work is being performed. Noise will include:
 - General construction noise
 - Noise from crane lifts and setting
 - Beeping from backup alarms on construction vehicles and equipment
